Short summary (max. 100 words)

REVIVAL was an EC supported Demonstration Project on the sustainable refurbishment of non-domestic buildings, with a total grant of 4.8meuro. The five year project, completed in 2008 ,covered the design, refurbishment and monitoring of four office buildings and one large school, in five countries in Europe. Results are available on the website <http://www.revival-eu.net/default.html> and a Handbook of Sustainable Refurbishment has been produced, edited by Nick Baker and published by Earthscan.

Making Europe's existing buildings sustainable
